ROLINE Smart KVM Verlängerung über RJ-45, VGA, USB

ROLINE Prolongateur Smart KVM via RJ-45, VGA, USB
ROLINE Smart KVM Extender, USB

ROLINE Smart KVM Extender
Model: 14.01.3249

Designed to enable one computer to be controlled by one or two users. Locate one set of keyboard/monitor/mouse up to 150 meters away from a computer or KVM switch using an inexpensive Category 5 UTP cable.

Designed for Professionals

Features

- Connects the **Computer Unit** and **Station Unit** via Category 5 UTP cable

- Remotely locates the keyboard, mouse and monitor up to 150m from a computer

- Supports USB Console

- Video compensation can be adjusted by **hotkey** to ensure the optimum signal quality for any length of cable within the limit.

- Easy to get and install the standard cable at lower cost

- Simple indication makes operation user-friendly

- Locates the computer away from your desk and work area, saving you valuable space

- Allows two users to share a single computer both in local and remote areas. (14.01.3249)

- Applicable for one console to manage two computers locally and remotely (14.01.3249)

- Beeps confirmation for key control makes the operation easier and cross-checked

- Compatible with XGA, VGA, and SVGA system
