**15.99.2086**

VALUE PCI-Karte, Seriell RS232, D-Sub 9, 2 Ports

VALUE Carte PCI 2S, 2x RS232, DB9

VALUE PCI Adapter, 2 Serial RS232, D-SUB 9 Port

## 15.99.2086

---

RS-232 2 ports PCI Card

### Product Information

---

15.99.2086 PCI card allows user to add two serial ports or expand their serial connection. The port has a data transfer rate up to 921.6 Kbps, which is ideal for use with connecting a serial modem, POS device, GPS, ISDN terminal, and etc. on your system. Bundled with the card is Sunix's unique software which allows user to increase the FIFO memory size up to 128Kbyte for maximum system performance.

### FEATURES

- Support 32 bit / 64 bit PCI bus
- Universal PCI interface
- 3.3V & 5V Universal PCI
- High performance 128Kbyte software FIFO under Windows 2000/XP/2003/Vista
- Friendly Graphic User Interface Ready for 64 bit system
- Data transfer speed up to 921.6Kb/sec
- Plug and Play
- Supports Windows, Linux, DOS

### HARDWARE

Chipset	SUN1889
Type	PCI RS-232 Card
Port	2 External RS-232 Port
Speed	Max. 921.6Kbps
OS Support	WIN CE, Windows 98SE / ME / NT/ 2000 / XP / 2003/ Vista, Linux, DOS
